\* Always apply a test patch before use

• Accessible Sales & Technical Departments 425.488.6570  
or [information@prosealproducts.com](mailto:information@prosealproducts.com)

• Technologically Advanced  
Products that are green-friendly

**Pro-Seal DG-7™** is the alternative to environmentally unsound solvents identified as degreasers. Extracted from natural citrus rind and blended with biodegradable detergents and emulsifiers, Pro-Seal DG-7™ “floats” grease and oil allowing a residue free surface upon rinsing. \*

**Removes oil, grease, other hydrocarbon-based  
contaminants, carpet mastics, rubber tire marks and  
rubber based contaminants**

### ADVANTAGES

- Concentrated
- Biodegradable
- Non-Toxic
- V.O.C. Compliant

### USES

- Concrete
- Stone
- Brick
- Marble
- Metal
- CMU Block
- And More

\* Can be used with Pro-Seal DP-36 to extract deep saturated fluid contaminants from concrete substrates
